

ANTONY REQUINTINA

SOLUTIONS ARCHITECT | SOFTWARE ENGINEER

CONTACT

- +63 926 039 2214
- anthercam21@gmail.com
- Cebu, Philippines

CORE EXPERTISE

- Backend Development:**
.NET (C#), ASP.NET, Web APIs, PHP (Laravel), Microservices, RESTful Services
- Frontend Development:**
React.js, TypeScript, HTML, CSS, with Node.js for server-side integration
- Cloud & DevOps:**
Azure (App Services, Functions, Storage, CI/CD), AWS, Docker
- Architecture & Design:**
Distributed Systems, Software Architecture, Design Patterns
- Quality & Testing:**
Unit Testing, Integration Testing
- Performance & Security:**
Application Optimization, Secure API Design, Monitoring & Logging
- Collaboration:**
Client Communication, Agile/Scrum, Cross-functional teamwork, Technical Leadership

EDUCATION

**BS Information Technology
Cum Laude**
University of Cebu - Banilad
2015

PROFESSIONAL SUMMARY

Solutions Architect and Software Engineer with 10+ years of experience in enterprise architecture, solution design, and building scalable, high-performance applications. Proven expertise in .NET/C#, ASP.NET, PHP (Laravel), RESTful APIs, Azure Cloud, and microservices architecture. Skilled in designing secure and reliable distributed systems, optimizing application performance, and leading cloud adoption initiatives. Strong background in stakeholder engagement, cross-functional team leadership, and mentoring developers, with a track record of driving engineering excellence through coding standards, quality testing, and system design best practices.

PROFESSIONAL EXPERIENCE

Software Engineer

Oppy | Colorado, US | Part-time | Jan 2024 – Oct 2025

- Developed and maintained back-office platforms using PHP (Laravel) backends and Node.js/React.js (TypeScript) frontends, ensuring scalability and performance across business-critical systems.
- Improved internal tool functionality, cutting process time by 25% and enabling three departments to operate more efficiently.
- Collaborated with senior architects and product managers to implement secure APIs and align solutions with enterprise standards.
- Enhanced code quality and maintainability by applying best practices in testing, version control, and continuous integration.

Solutions Architect

Avensia Philippines Inc. | Cebu, Philippines | Oct 2021 – present

- Translated client requirements into scalable, secure, and efficient architectures using .NET/C#, RESTful APIs, and Azure Cloud.
- Led the design and implementation of enterprise-grade backend solutions, improving system reliability and maintainability.
- Engaged directly with product teams to conceptualize and build new products, accelerating time-to-market for strategic initiatives.
- Provided technical leadership and mentorship, establishing coding standards, CI/CD pipelines, and automated testing practices that improved delivery quality.

Software Engineer

Inspire Team Philippines | Cebu, Philippines | Aug 2017 – Oct 2021

- Developed backend integrations between inRiver PIM, CMS, and ERP systems using C# and REST APIs, enabling seamless data flow across platforms.
- Built scalable import/export pipelines, ensuring data accuracy and reducing manual reconciliation efforts.
- Extended PIM functionality with custom APIs and plugins, increasing operational efficiency for client product management.
- Supported Agile delivery through sprint planning, code reviews, and collaborative problem-solving with cross-functional teams.

Technical Specialist

Alliance Software Inc. | Cebu, Philippines | June 2015– Aug 2017

- Developed backend services and business logic with ASP.NET and Angular, delivering high-availability enterprise applications.
- Built and maintained workflows and system integrations with Lotus Notes and .NET, supporting mission-critical business operations.
- Optimized backend logic and API design, improving system performance and reliability for enterprise clients.
